Brakethrough Technology

Erstklassig First-class

Besser ist besser

Wenn es um Qualität geht, genügt uns ein „sehr gut“ noch lange nicht. Wir erfüllen hohe Ansprüche an das Qualitätsmanagement und die europäische Sicherheitsnorm ECE-R90 wird von ATE sogar übertroffen. Zudem führen wir zahlreiche zusätzliche Tests durch, unter anderem zu Verschleiß und Wärmeleistung.

Auch Nachhaltigkeit ist uns wichtig: Wir stellen die Mischungen für ATE Bremsbeläge auf kupferfreie Materialien um und setzen bei ATE Ceramic auf geringen Abrieb. Nutzen ausschließlich umweltfreundliches Material für die Beschichtung von Bremsscheiben. Und bereiten Produkte wie Bremsättel wieder auf.

Better is better

When it comes to quality, “very good” is simply not good enough for us. We meet high standards of quality management – and ATE even exceeds the European safety standard ECE-R90. We also perform many additional tests, including wear and thermal performance.

Sustainability is also important to us: we convert the compounds for ATE brake pads to copperfree materials and opt for low abrasion with ATE Ceramic. We only use environmentally friendly material for the coating of brake discs – and we remanufacture products like brake callipers.
